Web Conferencing Class

Retd. Prof. S. Jagadish, IIM Bangalore has been delivering lectures of the Corporate Information Strategy course of PGP 2010-2012 batch over the Institute's video conferencing system. This is a pioneering instance where a class has been held in the video conferencing mode in IIM Shillong. Use of the Institute's Learning Management System to communicate assignments and quizzes with the participants alongwith the video conferencing has helped in increasing the interactions between Prof. Jagadish and the participants to a great deal even without the physical presence of the Prof. in the class.

The System Analysts of the Institute configured the Web conferencing system and is still experimenting to improve the quality and efficiency of the system.
