17	Pg 45 Section VI	<p>CLASSROOM TABLE-HORSESHOE/Semicircular:</p> <p>Providing and placing in position table of the following specifications. Top and modesty panel shall be made 18mm thick BWP Plywood laminated (with 1mm thick matt finished laminate with grains laid as per approved sample, laminate colour to match colour of teak wood edge beadings and mouldings. Inner surface of modesty and bottom of tabletop shall be provided with balancing laminate of minimum 0.8mm thick matching with tabletop laminate of approved shades. Edge beadings and mouldings made in teak wood shall be as per design. The teal wood mouldngs shall be sanded and finished such that all edges are slightly champhered (0.5 to 1mm) and shall be finished in matt finished PU coating with Four Coates. Tabletop Supported on MS Frame shall be powder coated to the thickness of 40 microns. All ends of frame shall be plugged with plastic moulded end cap. The Grommet shall be made from antiskid plastic moulded components to facilitate access electrical / data / voice sockets access from top. Vertical cable separately from bottom of table along with raceway having cut outs of required sizes along with Hydraulic Pop Up Box/Cable Cubby with Audio, Power Ports and USB C type Port. Table shall have adequate provisions for the movement of electric and LV cables 106eparately at desired levels. Table having provision of pen holder, bag holder and having a provision of name plate. All necessary SS hardware/ fitting/ hinges/ locks/ handles etc. shall be provided of from as per list of approved makes. The material procure from FSC certified supplier / OEM and complete as per the direction of Engineer-In-Charge.</p>	<p>1. The Minimum quantity for this type of table is 1440. However, the bidder/OEM can enhance the seating capacity in all classroom. The seating capacity for a 60-capacity classroom may be enhance to 75 seating capacity and 120 seating capacity may enhance to more than 120</p> <p>2. The bidder shall provide their own design of the tables fulling all the conditions mentioned in this clause.</p> <p>3. The table should be sturdy and strong and should be grouted in the floor of the classrooms.</p>
18	Pg 46 Section VI	<p>CLASSROOM CHAIR-</p> <p>Supplying and placing in position of chair as per photograph. Overall height 945mm max, 870 min, overall width 560mm, overall depth 530mm, seat size 470mm (W) x 460mm (D) and back size 470mm (W) x 490 (H), seat and back are made up of 12mm thick hot-pressed ply wood upholstered with fabric and molded with polyurethane foam (Density = 45 +/-2 kg/m 3 and Hardness = 20 +/- 2 at 25% compression). The back plywood shall be designed with contoured lumbar support for extra comfort. The chair shall have a center tilt mechanism and tilt tension adjustment, single locking facility and full 360 degrees swivel mechanism, the one-</p>	The number of chairs shall be equal to the number of tables.

		<p>piece arm rest should be made up of black integral skin polypropylene with 50-70 Shore "A" hardness reinforced with MS insert, the armrest are scratch and whether resistant. The arm rests are fitted to the seat with a connecting strip assembly made of 5mm of HR steel. The prong (base) is made of nylon and fitted with 5nos. twin wheel castors (castor wheel dia. 50mm). The prong (base) is 660mm pitch center dia (700mm with castors). The telescopic bellows is 3-piece telescopic type and injection molded in black polyurethane. The pneumatic height adjustment shall have adjustment stroke of 120mm and shall be operated at 30kgs extension force. The material procured from FSC certified supplier / OEM and complete as per the direction of Engineer-In-Charge.</p>	
19	Pg 46-47 Section VI	<p>CLASSROOM TABLE (FOR 40 - SEATER) Rectangular: Providing and placing in position table of the following specifications. Top shall be made 18mm thick made of moderately kiln seasoned beech wood, Base material shall be made 18mm thick BWP plywood 2mm thick PVC edge banding on all working area. The Modesty shall be 18mm thick kiln seasoned beech wood. Base material shall be made 12 mm thick BWP plywood 2mm thick PVC binding on all visible area. Inner side of modesty and below the tabletop balancing laminate shall be minimum 0.6mm thick matching with tabletop laminate of approved shades. All wooden surface to be sprayed with four coats of PU polish matt finished in desired shade. Legs shall be made from 1.6 mm Matt silver anodized aluminum extrusion/ MS legs. The wire carrying is facilitated through the hollow space between dual modesty and all the wires are concealed between two modesty.</p> <p>Tabletop Supported on MS legs shall be powder coated to the thickness of 40 microns. Both ends of Aluminum extrusion covered with plastic moulded end cap. The Grommet shall be made from antiskid plastic moulded components to facilitate access electrical / data / voice sockets access from top. Table shall have adequate provisions for the movement of electric and LV cables 108eparately at desired levels. Raceway having cut outs of required sizes along with Hydraulic Pop Up Box/Cable Cubby with Audio, Power Ports and USB C type Port. Table having provision of pen holder, bag holder and having a provision of name plate. All necessary SS hardware/ fitting/ hinges/ locks/ handles etc. shall be provided of from EBCO</p>	<p>The minimum number shall be 160. However the 40 capacity classroom may be enhance to 50 seating capacity or more. The other terms shall be as per Tender .</p>

		/ Hettich. The material procured from FSC certified supplier / OEM and complete as per the direction of Engineer-In-Charge.
