ABOUT IDEA/VENTURE

WAAPRO is a sustainable venture based in Jiribam, Manipur, dedicated to transforming bamboo—the region's green gold into world class, eco-friendly plywood products. The unit combines innovative manufacturing techniques with sustainable practices to create net-zero, environmentally responsible building materials. With a vision to promote bamboo as a versatile and renewable resource, WAAPRO empowers local communities, supports green industry, and contributes to a circular economy while delivering high-quality, sustainable products for global markets.

PROFESSIONAL EXPERIENCE

He has professional experience in industrial management and sustainable product development, focusing on eco-friendly innovation. His expertise supports WAAPRO's mission of promoting green industry and responsible entrepreneurship.

Sapam Narendra singh

Sapam Narendra Singh is the Founder of WAAPRO, a sustainable bamboo plywood manufacturing venture in Jiribam, Manipur. Driven by a vision to turn bamboo—the region's "green gold"—into eco-friendly, net-zero, and globally competitive products, he combines innovation with sustainability. His work emphasizes responsible manufacturing, community development, and the promotion of renewable resources, establishing WAAPRO as a leader in green building materials and sustainable industry practices.
