

Skill to Enterprise Model (STEM)

A joint initiative of IIM Shillong
and SIDBI, India

EDUCATION

Bachelor of Technology (Computer Science & Engineering), Post Graduate Diploma (GIS and Remote Sensing)

ABOUT IDEA/VENTURE

Opé is a sustainable mushroom cultivation venture based in Nagaland, dedicated to producing fresh, high-quality edible mushrooms. Specializing in varieties like oyster and shiitake, the company employs natural cultivation methods that prioritize environmental responsibility. Opé plans to strategically expand its product line beyond fresh mushrooms to include a wider array of specialty edible varieties and value-added products, reinforcing its commitment to quality, sustainability, and regional agricultural excellence.

PROFESSIONAL EXPERIENCE

Software Development Engineer I at Tabernacle Technologies Pvt. Ltd., Instructor at GeoTechX Institute, GIS Consultant at GeoGrid

Viphrenuo Kiso

Viphreno Kiso, Founder and Proprietor of Opé, is an aspiring agri-entrepreneur dedicated to revolutionizing sustainable farming in Nagaland. Her vision centers on establishing a modern, environmentally conscious mushroom cultivation venture. Kiso is focused on combining modern cultivation techniques with locally sourced resources to achieve a multifaceted impact. By prioritizing food security, generating rural livelihoods, and adhering to environmentally responsible farming practices, she aims to create a robust and sustainable model for agricultural development that benefits both the community and the ecology of the region.
